

## COMPANY HISTORY

Global Security Glazing has been at the forefront of manufacturing security, custom architectural, and transportation glass and glazing products for over six decades. Established with a commitment to innovation and quality, the company offers a diverse range of products designed to provide impact, bullet, blast, and fire-resistant protection across various applications.

Headquartered in Selma, AL, Global Security Glazing is renowned for its market-leading glazing solutions sought after worldwide to support complex and quality-sensitive infrastructure demands. As part of the Isoclima Group, a leading supplier of high-performance glass and transparent solutions, the company has emerged as the single source for all security and architectural glazing requirements.

The company's comprehensive product portfolio includes all-glass laminates, glass-clad polycarbonates, and laminated polycarbonates, catering to diverse design challenges in industries such as prisons, detention and correctional facilities, embassies, armored vehicles, and other buildings requiring enhanced security measures.

One of the key strengths of Global Security Glazing lies in its rigorous testing processes. All products are fully tested to specific standards and threat levels, ensuring compliance with industry regulations. Whether it's bullet-resistant, attack-resistant, or blast-resistant glazing, the company's solutions meet the stringent requirements of projects such as correctional facilities, embassies, courthouses, and hospitals.

In addition to its security-focused products, Global Security Glazing offers a complete line of architectural glass solutions, including tempered glass, chemically strengthened glass, insulated glass, spandrel glass, hurricane glazing, and curved glass products. Each product is manufactured under the Single Responsibility Program, ensuring meticulous attention to quality and consistency throughout the manufacturing process.

The acquisition of Global Security Glazing and Dlubak Specialty Glass Corp. by the Isoclima Group marks a significant milestone in the company's strategic growth plan. With this acquisition, Isoclima strengthens its leadership in the ballistic transparencies industry, expands into new market segments, and establishes local production capabilities in key regions, setting the stage for continued innovation and success in the years to come.
