

Founded in 1977, Isoclima Group has emerged as a leading entity in the advanced glass solutions sector. Starting as a manufacturer of flat glass, the company quickly adapted to produce curved glass by 1979, showcasing its commitment to innovation and industry leadership.

In the 1980s, Isoclima Group fortified its presence in the market by delving into bulletproof glass production, thus securing a prominent role in the security and defense sectors. The pivotal year of 1985 marked a transformation, establishing the company as a reputable source of security glass solutions.

Responding to the growing demands of the security and luxury markets by 1995, Isoclima integrated state-of-the-art technology to manufacture curved, bullet-resistant glass, highlighting its commitment to technological innovation and market adaptability.

The year 2000 was significant for Isoclima Group as it acquired Plastal S.p.A., a distinguished Italian firm known for transparent armor and aeronautical components. This strategic move expanded Isoclima's technological edge and product diversity, bolstering its global industry presence.

In 2010, the company marked a new phase with the launch of a cutting-edge production facility in Este, Italy, reaffirming its dedication to innovation, quality, and market expansion.

Since 2017, Isoclima Group has been part of Stirling Square Capital Partners' portfolio, enhancing its global footprint. In 2021, the company expanded its U.S. presence by acquiring Global Security Glazing in Selma, Alabama, and Dlubak Specialty Glass in Blairsville, Pennsylvania, thereby strengthening its portfolio.

Today, Isoclima Group is celebrated as a global leader in the glass industry, known for its extensive range of products and solutions. The company's rich history is a reflection of its pioneering spirit, unwavering commitment to excellence, and continuous evolution to meet the ever-changing market demands.
